Classroom furniture made right

Educan Institutional Furniture Ltd. is a **Canadian** manufacturer and distributor located in Abbotsford, BC.

Since 1996, our company has worked directly with school boards and purchasers to provide quality products that are **fully customizable**. By skipping the middleman distributor, we can deliver fast and cost-effective solutions to all your classroom furniture needs.

In March 2020, Educan came under **new management**. Together, our team of professionals is continuing the company's legacy by providing **furniture "made right"** — products that are durable, environmentally responsible, and locally manufactured (see p. 4).

Give us a **call at (604) 517-1010**, and let us help find the **right** furniture for you.

Warranty

All our steel frames have a **10-year limited lifetime warranty**, which is standard for ANSI/BIFMA-tested products. Plastic seats, laminate table tops, and chrome plating are warranted for five years, and moving parts such as glides, casters, and cylinders have a two-year warranty. Our warranty does not cover powder-coat finishes or colourfastness in laminate grain and colour.

For more information, please visit our [website](#) or call **(604) 517-1010**.

What “made right” means to us...

1. Local advantage

Manufacturing locally means shorter lead times, faster repairs, and pre-assembled delivery for customers in British Columbia and Alberta. Additionally, Educan’s 25+ years of industry experience means we are well-positioned to answer your questions and suggest innovative solutions. What’s not to love?

2. Built-to-last

Durability is key to our manufacturing process. To ensure a tougher build, we hand weld our frames with mig-welders, creating a bond that lasts longer than commercial spot welding. Our table and desk tops are also reinforced with a six-coat Edulast lacquer for durable edge protection, and the standard frames have a 3” channel skirt, which makes them stronger than many of our competitors’.

3. Student focused

Our tables, desks, chairs and stools come in a variety of shapes and sizes that are tailored for student success. From configurable shape tables to colourful laminates, markerboards and ergonomically-designed chairs that encourage good posture, we aim to foster fun and healthy learning spaces.

4. Environmentally responsible

Educan furniture is designed to minimize waste and other industrial pollutants. All our medium-density fibreboard (MDF) table tops are GREENGUARD certified, meaning they are guaranteed free of more than 10,000 volatile organic chemicals. In addition, the powder-coat paint finishes that we use for our frames, as well as the ‘Edulast’ sealant that we use for our table tops, are better for the environment because they produce less waste than most conventional methods. At the end of the manufacturing process, unused materials are recycled whenever possible.

In 2020, Educan redesigned its Ergo chair (p. 7) to be stronger than ever before. The frame has passed the static weight test, drop test and 100,000 cycles fatigue test in accordance with ANSI/BIFMA* standards.

770 lbs

Static weight test

During physical testing, the Ergo chair was able to hold 770 lbs (350 kg) of weight without bending or breaking. It also passed a 330-lbs (150 kg) drop test from 22” above the seat.

Watch the video:
educanltd.com/19401

When our engineers ran a computer simulation of the chair’s weight limits, they found that the welds experienced only mild levels of stress (green) during physical testing.

* BIFMA is a not-for-profit trade association that develops standards for the commercial furniture industry.

CHAIRS & STOOLS

Our selection of chairs and stools are efficient and comfortable in any working environment. Browse this catalogue for chairs that are stackable, folding, flame resistant, height adjustable for K-12 students, and so much more! All the standard chairs and stools come with a nylon base to help protect your classroom floors, but other options are available on p. 39.

Best seller

Ergo stacking chair

Model 1940

This chair is ergonomically crafted to protect students' posture and help prevent back pain. The injection-moulded polypropylene bucket flexes with the students as they move, helping them concentrate on their lessons and not get distracted by an uncomfortable seat. See p. 12 for colours and finishes.

36" x 42"	22-30" (adjustable)
	30" (fixed)
	Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Bowtie table

Model 1000B

Dimensions	Height options
36" X 48"	22-30" (adjustable)
	30" (fixed)
	Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Best seller

Horseshoe table

Model 1000HS

The horseshoe table allows teachers easy access to help students as they work. Whether the class is collaborating on group projects or working on individual assignments, this shape gives educators the freedom to engage. See p. 28 for colours and finishes.

Dimensions	Height options
60" X 66"	22-30"
72" X 48"	30"
	Custom

Horseshoe table (p. 19) and Kort chairs (p. 8).

Fusion table

Model 1000FS

Dimensions	Height options
48" (diameter)	22-30" (adjustable) 30" (fixed) Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Kidney table

Model 1000KI

Dimensions	Height options
36" X 72" 48" X 72"	22-30" (adjustable) 30" (fixed) Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39).

Orb table

Model 1000O

Dimensions	Height options
48" X 48"	22-30" (adjustable) 30" (fixed) Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Cluster table

Model 1000CL

Dimensions	Height options
24" X 48"	22-30" (adjustable) 30" (fixed) Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Fleur table

Model 1000FL

Dimensions	Height options
60" (diameter) 48"	22-30" (adjustable) 30" (fixed) Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Force table

1000F

Dimensions	Height options
48" X 48" X 48"	22-30" (adjustable) 30" (fixed) Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Parachute table

Model 1000P

Dimensions	Height options
33" X 46"	22-30" (adjustable)
	30" (fixed)
	Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Pond table

Model 1000PD

Dimensions	Height options
60" (diameter)	22-30" (adjustable)
	30" (fixed)
	Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs (pictured) instead of the three-inch channel skirt.

Star table

Model 1000ST

Dimensions	Height options
48" (diameter) 60"	22-30" (adjustable)
	30" (fixed)
	Custom

Dimensions	Height options
60" X 66"	22-30" (adjustable)
30" X 72"	30" (fixed)
48" X 72"	Custom

Material: laminate table top with bull-nosed edging, Edulast lacquer sealant, and square tubular steel legs. The frame is also reinforced with a three-inch channel skirt for industrial strength and durability.
Laminate and frame colours: all standard colours are available (p. 28).
Options: choose from a variety of glides (p. 39); opt for knock-down legs instead of the three-inch channel skirt.

1. Trapezoid desk

These desks (p. 32) are perfect for individual *and* group learning. Arrange them in rows for a traditional lecture or join up to seven of them together to make a circle. The plastic book box add-on (pictured) is also a good choice for elementary homeroom classes.

2. Ergo chair

One of Educacn's best-selling products, the Ergo chair (p. 7) encourages students to sit with good posture in the classroom. Ergonomically-designed chairs can help kids focus on their work and fidget less during lessons.

3. Wave table

Looking for a more creative classroom space? The Wave table (p. 25) has all the benefits of a typical rectangular table, but its curved design can be paired with the Force, Orb and Cluster tables for some fun group-work configurations.

4. Force table

Alone, the Force table (p. 21) is perfect for groups of 2-3 students. However, it can also be paired with itself to make a larger table or combined with the Orb, Wave, and Cluster tables for flexible learning and beautiful classroom designs.

WHEELCHAIR ACCESSIBLE DESKS

Models 1192 and 1192D

These desks are made taller and wider than our standard study desks to accommodate students who use wheelchairs. The telescopic chrome legs are adjustable between 26-34" in one-inch increments, and the bull-nosed top corners keep students safe while manoeuvring in and around the desk.

	Dimensions	Height Options
Single	18" X 36" 20" X 36"	26-34" (adjustable) Custom
Double	18" X 48" 20" X 48"	

PARTS & ACCESSORIES

Browse our selection of folding table caddies, chair dollies, exam dividers, tote trays and storage shelves. Table caddies are available for round or rectangular folding tables, and the storage shelves can hold 12-18 trays.

Tote trays*

Model 2670

Help your students stay organized and keep track of their supplies with these brightly-coloured tote trays. The trays are especially useful for elementary students who move between classrooms or activity zones throughout the day.

Colour	Dimensions
Black	14" X 21" X 4"
Pumpkin	14" X 16" X 4"
Grey	12" X 16" X 4"

Material: injection-moulded plastic.

Storage shelves

Model 3600

These storage shelves are made to hold between 12-18 tote trays.

Dimensions	Totes
23" X 32" X 34"	12
23" X 32" X 48"	18

Material: laminated medium-density fibreboard (MDF).

Laminate colours: all standard colours are available (p. 34).

*Tote tray storage can be built underneath many of our table and desk styles. See the "Study desk with tote tray" on p. 32 for an example.

Replacement parts

If your Educan furniture needs repairs for wear and tear, we can offer replacement table tops, glides, casters, folding table legs, and more. Give us a call at 604-517-1010, and let us know how we can help!

Dollies & caddies

When you buy a set of folding tables or chairs, you can choose to bundle your purchase with a caddy or dolly. These tools will keep your storage room organized and speed up your set-up and take-down routine at school events.

Folding table caddy
Model 1400FC - Round
Model 1400FC - Rectangle

Chair dolly
Model 2200FC

Exam dividers

Model 3500

When space is limited, it can be difficult to administer tests. Give students some privacy and ensure individual work during exams with these dividers.

Dimensions

4" X 24" X 16"

Material: laminate medium density fibreboard (MDF).
Laminate colours: all standard colours are available (p. 34).

Casters & glides

Our standard chair and table glides have a nylon base, which is a good overall pick for most floor types. However, we also offer rubber, steel and felt bases to suit your preferences. Browse the selection below or call 604-517-1010 for even more options.
